

New Forest Show

The New Forest Show delivered an audience of nearly 90,000 people in 2014 and Qdos Event Hire was the sole supplier of public conveniences.

We supplied the following products from our extensive range:

- 35 x 24ft x 9ft jack leg toilet units with a combination of male, female and disabled facilities, all were supplied with steps and ramps to comply with current health and safety regulations as required
- 9 x Luxury fresh water trailers units in a combination of luxury showers, male and female vacuum toilets
- 7 x 24ft x 9ft jack leg cabins (one of which was a superior hospitality unit used as a ticket office)
- 12 x Single Plastic Portable Toilets
- 2 x 12ft x 9ft double occupancy sleeper units

It took 7 days to get all the units to site, in place and installed. Once the units were sited we worked with the organisers' grounds staff and plumbers to get them operational as quickly and efficiently as possible. We also provide two engineers for onsite support during show days.

We have an excellent relationship with the Show's organisers and work closely with them to completely understand their requirements and have a sound knowledge of our products and services.

We have been working with the organisers of the event since our inception in 2010 and have recently signed a three year deal that will see us work with them until 2017.

"Qdos has been a supplier at The New Forest Show for many years and have always provided an excellent service. The units arrive on time, are clean before the event and very user friendly for our visitors. They are also smart and rarely go wrong ensuring we maintain the reputation for holding a high quality event for all involved. Qdos has always worked closely with us; communicating effectively, deliver goods on-time and have a can do attitude."

Denis Dooley, Show Secretary, The New Forest Show
