

Puma & Red Bull Racing F1

When innovision recently delivered the impressive launch of the new Puma and Red Bull Racing F1 Car Livery and Lifestyle Collection, Qdos Event Hire was more than happy to support the event. The company provided them with high quality portable toilets, including their brand new luxury vacuum trailer. The 3 Ladies + 2 Gents + 1 Disabled comes with a state of the art electronic ramp for ease of access.

The launch took place within the Truman Brewery's U Block, which innovision transformed into a Red Bull Racing garage. Contemporary music and dance led up to the big reveal, the Red Bull F1 racing car appeared on a stage, accompanied by 'engineers' who donned items from the new collection. This was followed by presentations from Puma and the Infiniti Red Bull Racing Formula One team.

"Qdos provided quality products alongside a professional and happy to help approach, which contributed to making the event a success."

Lisa McNab, Assistant Producer,
innovision Events LTD.
